

In a broad valley I passed a dense wood of *Quercus pedunculata*, while on the edges there was a dense growth of wild sloughs (*Prunus spinosa*), *Euonymus verrucosa*, *Crataegus sanguinea*, *Rhamnus cathartica* and some minor things.

I noticed that *Cytisus biflorus* is a great sand-binder, making roots of truly enormous length; the sheep and goats, which graze in large numbers on the hills, leave it severely alone, so I suppose it must be rather poisonous. There is a good lot of *Ephedra vulgaris* to be seen of which the Russians make use as a blood purifying remedy. On some hill slopes I noticed clumps of *Triticum cristatum* growing in pure sand and it appears to me, that this grass has also a future before it in the drier sections of America."

PLANTS FOR DISTRIBUTION, May, 1912

<i>Acacia cornuta</i>	33652
<i>Ambelania tenuiflora</i>	27577
<i>Ananas sativus</i>	29211
<i>Atalantia glauca</i>	29660
<i>Bambos arundinacea</i>	32761
<i>Castilla</i> sp.	31225, 31360
<i>Clerodendrum dichotomum</i>	31706
<i>Coffea dewevrii</i>	31758
<i>Dipterocarpus alatus</i>	23343
<i>Dipterocarpus intricatus</i>	23344
<i>Dymocarpus longan</i>	
<i>Elaeodendron orientale</i>	29020
<i>Ficus utilis</i>	29359
<i>Glycosmis pentaphylla</i>	24609
<i>Gustavia</i> sp.	27851
<i>Inga edulis</i>	27798, 29013
<i>Jatropha</i> sp.	25775
<i>Lansium domesticum</i>	24431
<i>Machilus nanmu</i>	29485
<i>Mangifera zeylanica</i>	31633
<i>Psidium guajava</i>	30476-477, 31359
<i>Quillaja saponaria</i>	26325
<i>Ravenala madagascariensis</i>	29424
<i>Rheedia edulis</i>	30492
<i>Rheedia macrophylla</i>	27578
<i>Rosa</i> , Belle Portuguaise	29729
<i>Rosa</i> hybrid	32668
<i>Spathodea campanulata</i>	31953
<i>Vangueria madagascariensis</i>	29021
